

Disability Insurance

The College of Medicine **requires** that all students have disability insurance. The policy offered to all students is sponsored by the AMA and costs approximately \$50 per year. Your student loan/scholarship package is increased proportionately to cover the cost of the disability insurance policy. In the unfortunate event that you should become disabled, the policy provides for:

- A lump sum benefit of \$5,000
- A monthly payment of \$ 1,500, subject to specific program requirements in \$500 increments
- Repayment of all eligible debt up to \$200,000 that a student is legally liable to repay for college and/or medical education.

Please note that we are transitioning to an electronic payment for the disability insurance, rather than paper checks. A \$48 fee for Disability 2018 will be processed from your tuition.
